

Deep and Sultry

THE DRAMATIC LOOK of fall has replaced the natural look of summer: soft neutral eyes are now bold and smoky and sheer glossy lips have conceded to opacity. Add a little drama to your look with sultry lips in deep berry tones, similar to those that ruled the runway this season.

CHOOSE THE RIGHT SHADE FOR YOUR COMPLEXION, IF YOU ARE:

- * Fair like **Reese Witherspoon**, choose shades with pink undertones.
- * Cream like **Lucy Liu**, select hues in wine or burgundy.
- * Olive like **Salma Hayek**, try tones with a hint of brown.
- * Deep bronze like **Gabrielle Union**, opt for deep plum shades.
