BEAUTY OR BENEFIT?

There are so many glossy options available today that it could be easy to sacrifice benefit for beauty when choosing a lip gloss.

Whether you're looking for the ideal intensity for a special occasion or the perfect color to complement an outfit, pick something double duty.

For as many concerns as we have with our lips (too thin, dry and chapping or fine lines), there are just as many treatments: plumpers, moisturizers and exfoliators.

With the guidance of Sephora color expert Kristen Vatt, here are lip glosses from Sephora that provide beauty with benefit for every age.

40s

Plump your lips

This helps get rid of any fine lines around the lip area and diminishing volume in your lips.

Try: (e) Stila Plumping Lip Glaze in Berry Mint, \$24.

Beauty benefit: Boasting the ease of a click pen, this plumping lip gloss also includes camellia oil and vitamin E to soften lips. Wear alone or with lip color.
